

VIBE CREDIT UNION

Jarbou Ronnisch Construction has delivered comprehensive branch construction and renovation solutions for Vibe Credit Union in Novi, Waterford, Southfield, Livonia, Sterling Heights, Ferndale, Royal Oak, Birmingham & Berkley, MI.

Our team handled full-scope refinements including interior remodels, ATM/drive-thru enhancements, updated banking floor layouts, and mechanical and finish upgrades — all aligned with Vibe’s brand standards of modern, member-friendly banking environments. With each location we prioritized operational continuity, community engagement, and a layout that supports both everyday transactions and deeper financial services. These projects underscore JRC’s ability to execute finely-tuned branch builds across a network of sites, all while delivering consistent quality and on-schedule completions.
