

LIBERTY PROPERTY TRUST

In 2000, Jarbou Ronnisch Construction completed the ground-up construction of a 250,000 square foot industrial facility for Liberty Property Trust in Romulus, Michigan. The building features precast concrete exterior walls, providing exceptional durability and efficient construction timelines. This large-scale project included site preparation, steel frame construction, and extensive infrastructure work to support the needs of a modern industrial operation, making it an ideal space for high-volume logistics and distribution.
