

F & M BANK BIRMINGHAM

Ronnisch Construction managed the renovation and build-out of F&M Bank's Birmingham, Michigan branch, faithfully executing the client's vision for a modern, community-focused banking environment. From updating interior finishes and banking-floor layouts to refreshing mechanical and electrical systems and optimizing teller and customer-service zones, our team delivered a branch that blends operational efficiency with a welcoming member experience. The project underscores Ronnisch's strength in financial-industry construction and renovation, especially for institutions seeking to elevate their brand presence in key markets.
