

# GOLDFISH SWIM SCHOOL

Jarbou Ronnisch Construction is proud to partner with Goldfish Swim School on facility build-outs across Michigan, Ohio, Illinois, and Indiana. From creating inviting, family-friendly aquatic environments to delivering the high-performance mechanical, structural, and interior design standards required for high-volume swim instruction, our team managed each project with precision and care. Whether coordinating the warm-water pool systems and user-friendly layouts in Michigan or adapting the model to the Fishers, IN location, Jarbou Ronnisch ensured consistent brand fidelity while tailoring each build-out to its local market. The results: safe, engaging swim-schools that reflect Goldfish's ethos of fun, learning and water-safety excellence.
