

GOLDFISH SWIM SCHOOL FARMINGTON HILLS

Goldfish Swim Schools, Biddison Architecture + Design, and Ronnisch Construction Group teamed up to complete one of the first 'in-line' locations for Goldfish Swim Schools. Located in a flex-space, multi-tenant facility in Farmington Hills, this interior build-out was an early project in the branding of Goldfish Swim Schools. The location features two pools, a Baby Pool and a Kids Pool. Other amenities include a Party Room, Parent Viewing Area, and Changing Rooms. The site, like all Goldfish locations, caters to both the kids and the parents. Important features include warm pool water and warm air, a fun atmosphere, and an onsite store.
