

MR. CAR WASH CANTON

Ronnisch Construction Group proudly led the build for the remarkable Mr. Car Wash Canton project, a comprehensive endeavor spanning 5,000 square feet. Our role encompassed not only the meticulous demolition of the previous structure and site utilities but also the strategic planning and execution of a cutting-edge touchless car wash facility. With unwavering attention to detail, we orchestrated the development of a brand new parking lot, driving areas, approaches, and site utilities, ensuring seamless integration and optimal functionality. By leveraging our expertise and commitment to excellence, we delivered a transformative solution that not only meets but exceeds the expectations of the Canton community, setting a new standard in car wash innovation and service.
