

Ronnisch Construction is proud to serve as the Construction Manager for The Webster, a premier mixed-use development in the heart of downtown Auburn Hills. This five-story building will feature a modern design that seamlessly integrates residential and commercial spaces. The first floor will offer prime retail space, activating the streetscape and contributing to the city's vibrant downtown atmosphere. Above, four stories of thoughtfully designed apartments will provide contemporary living options for residents seeking convenience and walkability. Additionally, an underground parking garage will ensure ample parking while maintaining the development's pedestrian-friendly appeal. The Webster is set to become a standout addition to Auburn Hills, enhancing both its residential and commercial landscape.
