

ZAX CAR WASH

Jarbou Ronnisch Construction delivered a full renovation of the former Zax Car Wash in Wixom, transforming the aging facility into the refreshed and modern Zax Express Wash. Our team executed significant upgrades to the building, site, and wash systems, coordinating structural improvements, updated mechanical and electrical components, and a complete exterior and interior refresh. What began as a renovation evolved into a near ground-up reimagining of the space, resulting in a clean, efficient, and visually elevated express wash experience. The finished project reflects Jarbou Ronnisch's commitment to quality, collaboration, and delivering value that lasts beyond opening day.
