

ARMENIAN COMMUNITY CENTER

Jarbou Ronnisch Construction was selected as the Construction Manager to add an addition to the Armenian Community Center. The 16,000 square foot space is now a sports and educational wing. The renovated space now provides additional classrooms for students as well as a new gym for recreational use. Jarbou Ronnisch Construction worked closely with the architect and Raffi Ourlian, to build and deliver this space to meet the needs of their students and staff. Project valued at \$2.6 Million.
