Construction

## BIRMINGHAM COUNTRY CLUB

Jarbou Ronnisch Construction was proud to partner once again with Birmingham Country Club as Construction Manager for a comprehensive series of interior and exterior improvements across the club's campus. As a trusted, repeat client, the club selected Jarbou Ronnisch to deliver thoughtful renovations designed to enhance the member experience while preserving its timeless character.

Spanning approximately 30,000 square feet, the multi-phase project included upgrades to the tennis and paddle ball courts, pool deck and outdoor bar, pavilion, turf care center, and kitchen equipment, along with interior renovations to ballrooms, bar areas, private dining spaces, reception areas, and the women's locker room. Working closely with General Manager and COO Joe Basso, our team modernized key spaces to support recreation, dining, and events for years to come.
