

Blessed be God in all His designs

And in long life, a young man named Barney began a glorious journey to God...

Along that journey he found the Capuchin Fathers and became a member of their Order. He lived for many years here at St. Bonaventure's, ministering to many people who were sick, poor, and in need. He became a beloved friend to the Capuchins of St. Bonaventure's and to the people of this area...

Barney was an appreciation for all the members of God's creation...

Along this garden path...

CAPUCHIN

The Capuchin Father Solanus Casey Museum Renovation highlights Jarbou Ronnisch Construction's experience delivering thoughtful work for mission-driven and culturally significant spaces. Located in Detroit, the museum welcomes thousands of visitors each year, and our team approached the renovation with careful coordination, quality craftsmanship, and respect for the building's historic and reflective nature. The result enhances the visitor experience while preserving its role as a place of reflection, education, and community connection.

This work is part of an ongoing partnership with the Capuchin community, which also includes a 24,000-square-foot retreat renovation (\$1.5 million) and a 2,300-square-foot kitchen renovation (\$500,000). Together, these projects reflect our ability to deliver high-quality, purpose-driven environments across a range of spaces.
