## JOGUE, INC.

For more than a decade, we have partnered with Jogue, Inc., a leader in flavor and ingredient innovation, supporting ongoing construction and renovation projects that align with the company's growth across Michigan. Jogue develops high-quality extracts, syrups, and specialty ingredients for the food and beverage industry while maintaining rigorous standards and expanding its facilities.

Since 2010, our work has included major buildouts, expansions, renovations, and maintenance projects across Bloomfield Hills, Northville, Plymouth, and Detroit, supporting both office and manufacturing environments.

Notable projects include a 11,700-square-foot office renovation at Jogue's Bloomfield Hills headquarters and a 14,000-square-foot manufacturing expansion in Plymouth valued at more than \$5.25 million. Additional work has included exterior renovations, industrial upgrades, repairs, and ongoing infrastructure improvements. This long-standing partnership reflects a shared commitment to quality, reliability, and facilities that support Jogue's continued growth.
