

METRO DETROIT CHRISTIAN CHURCH

Ronnisch Construction Group managed the comprehensive interior renovation of Metro Detroit Christian Church in Farmington Hills, focusing on enhancing functionality, accessibility, and aesthetics. Some key components of the renovation included complete reconfiguration of the men's and women's restrooms, upgrades to the sanctuary including accessibility enhancements, and replacement of the first floor carpeting throughout the entire building. Finally, new electrical receptacles and lighting were installed throughout the building. This renovation has provided Metro Detroit Christian Church with a modern, functional, and visually appealing interior, supporting their mission and activities effectively.
